My new CD, "Home", featuring the wonderful vocalist Erica Morales, is now on sale!!

You can order copies to be posted to anywhere in the world, or download the album in mp3 format in my online store. Previews of the songs can be heard on the mp3 player on the right of this screen.

I'm so thrilled that this project is finished! I will record more CDs in the future with me singing on them, but I am also excited about opportunities to spotlight other people's gifts. Erica is not only an incredible vocalist, but she also has a genuine and passionate heart for God.

I hope the songs on this CD will encourage and inspire you.
